

Introducing the Online Update

PxPlus 2016 (v13)

Online Update

- Convenient and secure method for updating the PxPlus Development Suite over the internet
 - Programs
 - Screen library
 - Executable (.EXE) and/or .DLLs
 - Help files

- Introduced just after PxPlus 2014

PxPlus 2014.01

DireXions 2016

Online Update

- Client/Server environment
 - Run on server
 - WindX workstations
- Access Online Update
 - IDE menu bar
 - PxPlus command prompt
 - Type: **updates**

Online Update – Getting Started

● Important Note:

The Online Update should only be run after all users have exited the system; otherwise, errors can occur when the Online Update attempts to apply changes to one or more files already in use.

- Also recommended that you exit PxPlus and re-enter after the update is completed

● Running the update

- Checks online to determine if any updates are available for the installed version of PxPlus

Update Manager Screen

- Displays updates available for PxPlus version

ID	Title	Date	Status
0006	Update for PxPlus 2014 FP1 Help	2015/12/04	Removed on 2016-07-04 by Susan

How the Online Update Works

- ***update (lib/_update)** folder is located under the lib directory with sub-folders for each version
- Each version folder contains a **status** data file as well as folders for each update (0001, 0002 etc.)
 - Zip file of the updates involved (**readme** file)
 - Backup versions of the files being updated
 - **logfile** text file

Text Mode Online Update

- Commands available at the -> prompt:

Command	Description
UPDATES	Either launches the graphical update utility on a graphical device or displays Help information on a text mode device.
UPDATES LIST #	Lists the title, description and status of the Update ID specified (#). If no Update ID is supplied, the title and status details of all updates are listed.
UPDATES APPLY #	Applies all updates, up to and including the specified Update ID (#). If no Update ID is supplied, all pending updates will be applied.
UPDATES REMOVE #	Removes any updates that have been applied back to and including the specified Update ID (#). If no Update ID is supplied, all applied updates will be removed.

Online Update - Advantages

- Provides many advantages
 - Allows us to post updates in a more timely manner, without the need to create new builds
 - Updates available to end users more quickly
 - Applies updates in an easy and secure manner
 - You are in control of the updates
 - Allows for rollback of updates in case of a problem
 - Tracks updates applied, assisting our Support Department to resolve issues

In Conclusion

- The **Online Update** utility securely downloads and applies the latest updates available from PVX Plus Technologies Ltd.
- Helps keep your PxPlus installation up-to-date.

Additional Resources

The help link(s) below refer to the current on-line help pages. The functionality may have been further updated since the PxPlus 2016 (version 13) release.
