

WindX Security Enhancements

PxPlus 2019 (v16)

Security Mode Changes

WindX Changes

- New options to set/reset security settings in Launcher

- Click Lock on top right
- Option to Disable/Enable security

Security question
also asked during
software install

User Security Codes

New Security Option for Simple CS

- Optional validation of security code by Simple CS
- Simple CS workstation host name includes `Userkey=passcode` option

```
C:\...\pxplus.exe *plus\cs\client -arg "hostname;4093;Userkey=somevalue"
```

- Host maintains file of security codes specified by `Userkeys=path` option

```
C:\...\pxplus.exe *plus\cs\host -arg "4093;Userkeys=somepath"
```

- File is a simple text file with `userid=passcode`
 - Connection compares workstation userid against passcode
 - Optional userid of "*" for passcode that any user can use
- Workstation connection rejected if no match in passcode file

```
Mike=AbraCadabra  
Len=Softball  
*=SkyWalker
```
