

PXPLUS ON THE WEB

HTML EDITOR DEMO

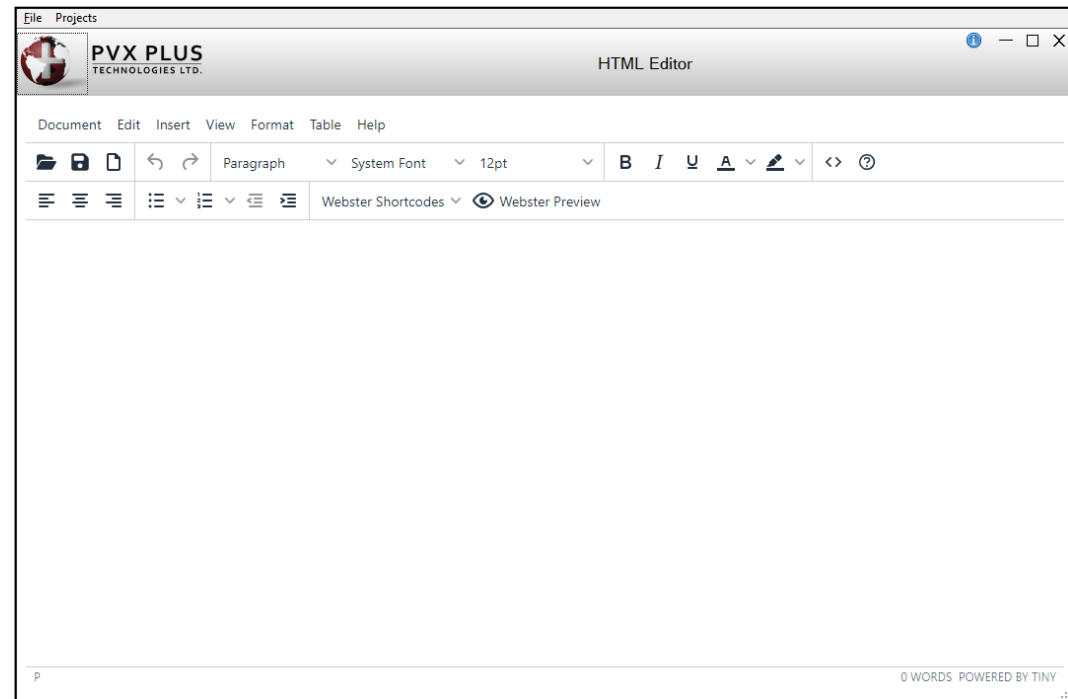

DireXions 2024

LAUNCH HTML EDITOR TASK

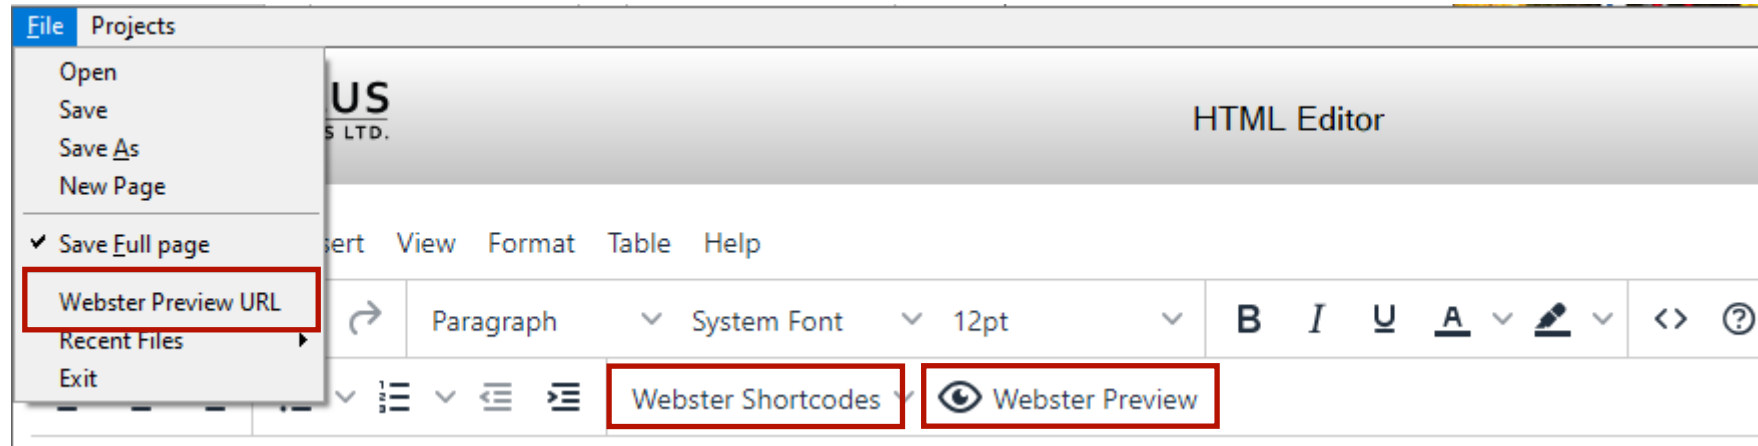

HTML EDITOR

- Launch the [HTML Editor](#) task located near the bottom of the IDE Menu to display the **HTML Editor** dialog

WEBSTER+ FEATURES

NEW FEATURES ADDED FOR WEBSTER+

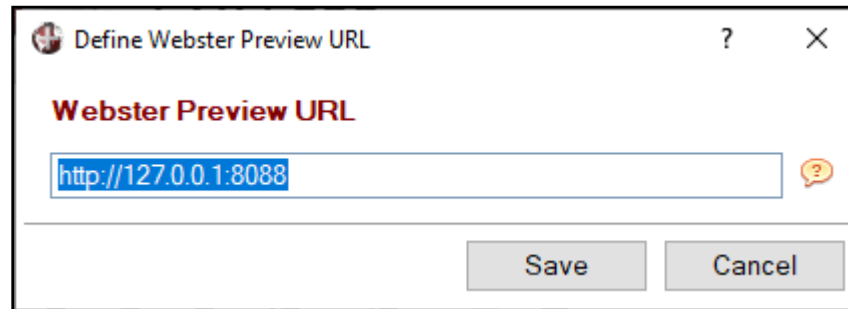

- **Webster Preview URL** added to the **File** menu
- **Webster Shortcodes** drop box
- **Webster Preview** button

WEBSTER+ FEATURES EXPLAINED

WEBSTER PREVIEW URL

- This is the same URL that can also be defined from Library Object Selection or within the File Maintenance Generator

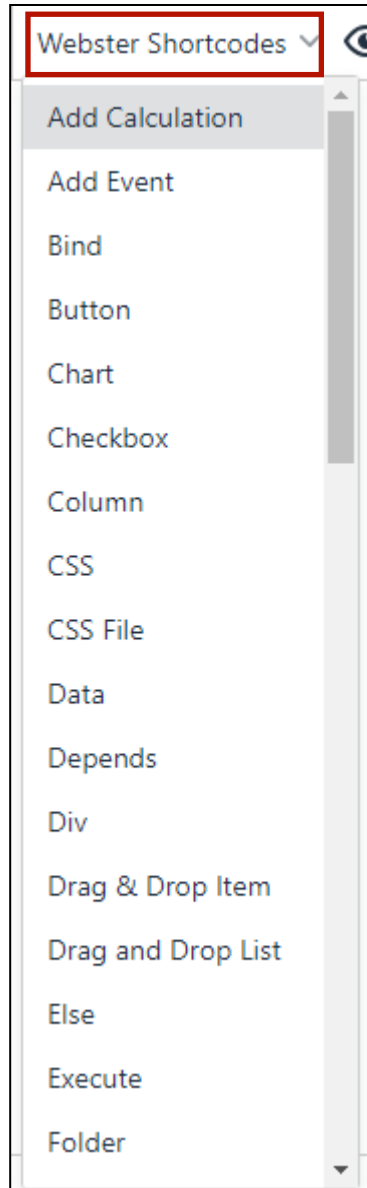

WEBSTER SHORTCODES

- Drop box list of all available Webster+ short codes
- Inserts basic short code (either [shortcode][/shortcode] or [shortcode])
- Sometimes asks for common options
- Can be edited further as required after insertion on the HTML document

WEBSTER PREVIEW

- Provides a preview of the page running in Webster+

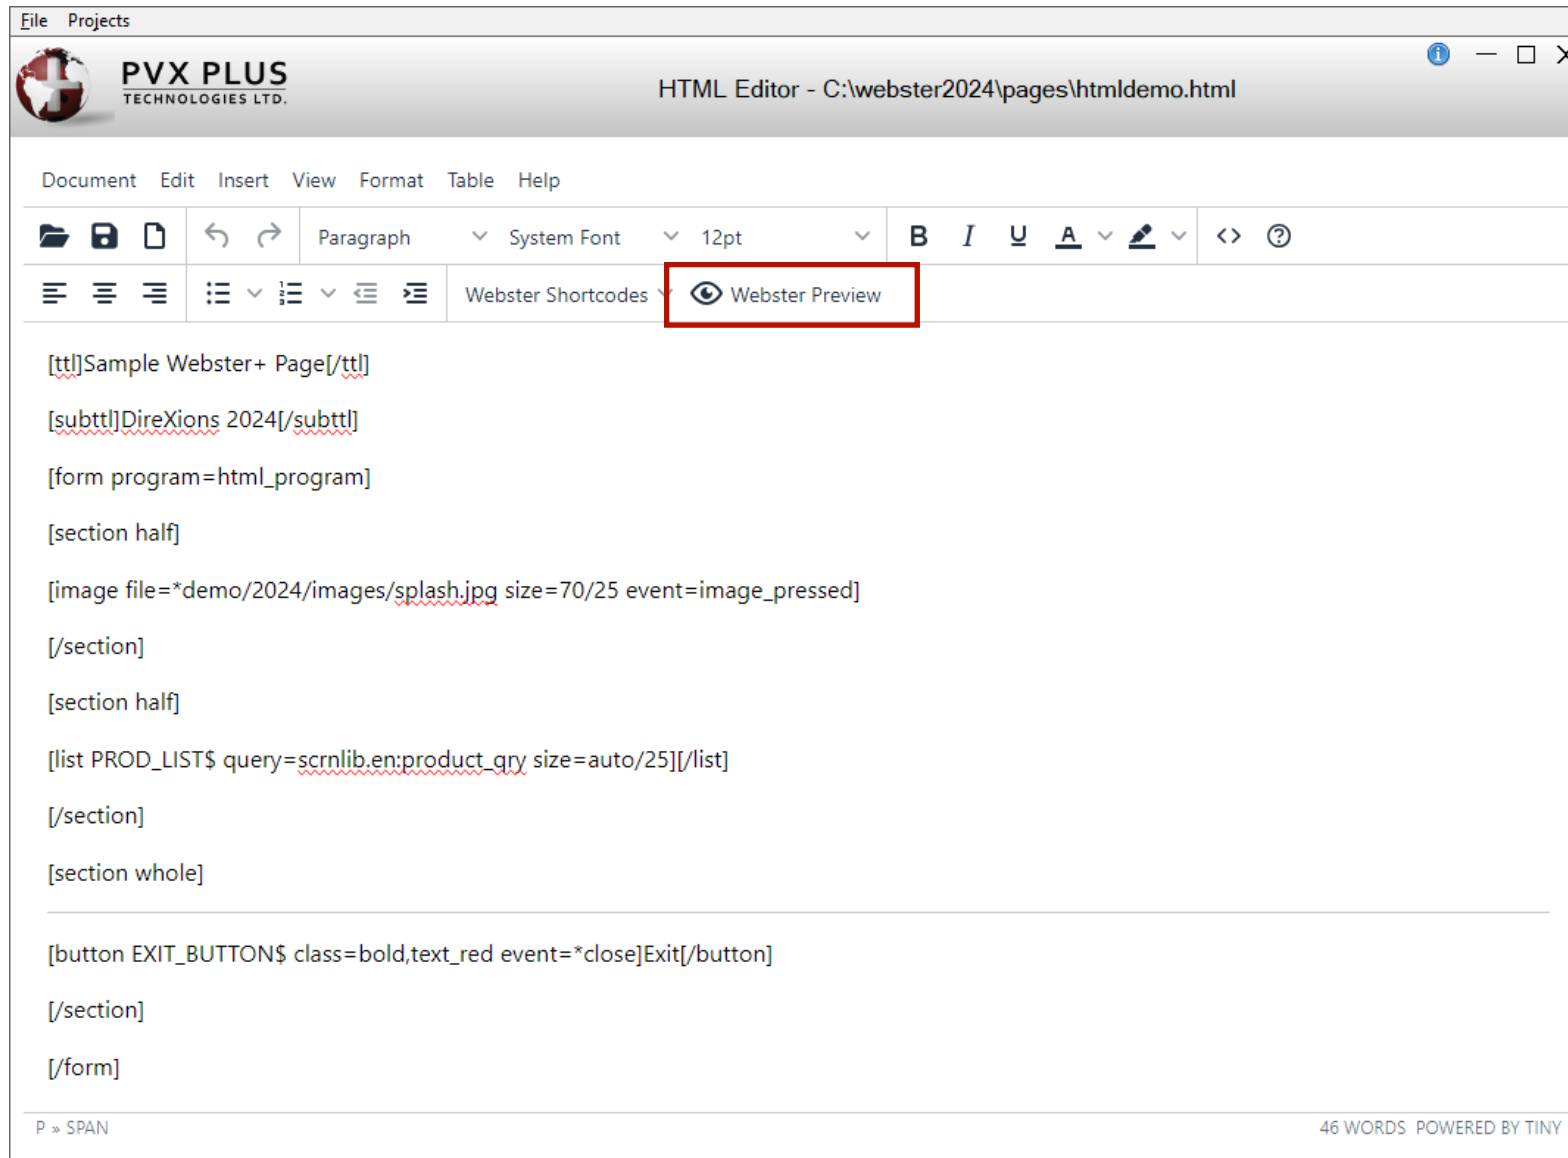

CREATE HTML PAGE

CREATE PAGE

- By selecting various **Webster+ shortcodes** from the drop box, the document on the next slide was created by typing additional options, etc. for the basic short code inserted
- Shortcode syntax may also be typed directly into the editor (if known)
- Standard HTML Editor functionality may also be used
- The Horizontal Line in the **whole** section near the bottom of the page was added via the **Insert** menu item

COMPLETED HTML PAGE

The screenshot shows the PVX PLUS HTML Editor interface. The title bar indicates the file path: C:\webster2024\pages\htmldemo.html. The menu bar includes File, Projects, Document, Edit, Insert, View, Format, Table, and Help. The toolbar contains various editing tools, including Paragraph, System Font, 12pt, Bold (B), Italic (I), Underline (U), Text Color (A), and a 'Webster Preview' button, which is highlighted with a red box. The main editing area contains the following HTML code:

```
[tt]Sample Webster+ Page[/tt]
[subtt]DireXions 2024[/subtt]
[form program=html_program]
[section half]
[image file=*demo/2024/images/splash.jpg size=70/25 event=image_pressed]
[/section]
[section half]
[list PROD_LIST$ query=scrnlib.en;product_gry size=auto/25][[/list]
[/section]
[section whole]

---

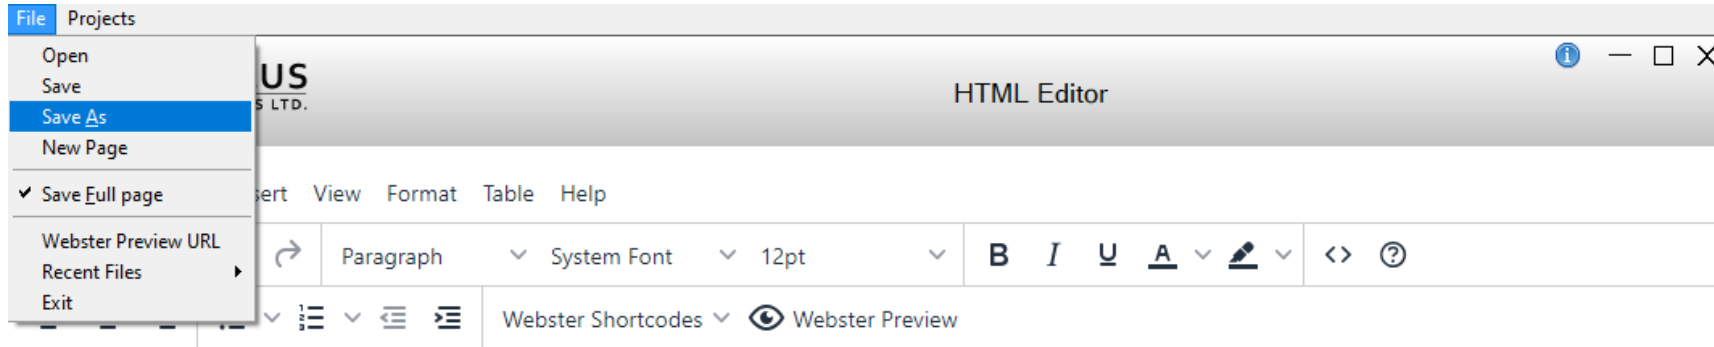

[button EXIT_BUTTON$ class=bold,text_red event=*close]Exit[/button]
[/section]
[/form]
```

At the bottom of the editor, it shows 'P » SPAN' on the left and '46 WORDS POWERED BY TINY' on the right.

WEBSTER PREVIEW

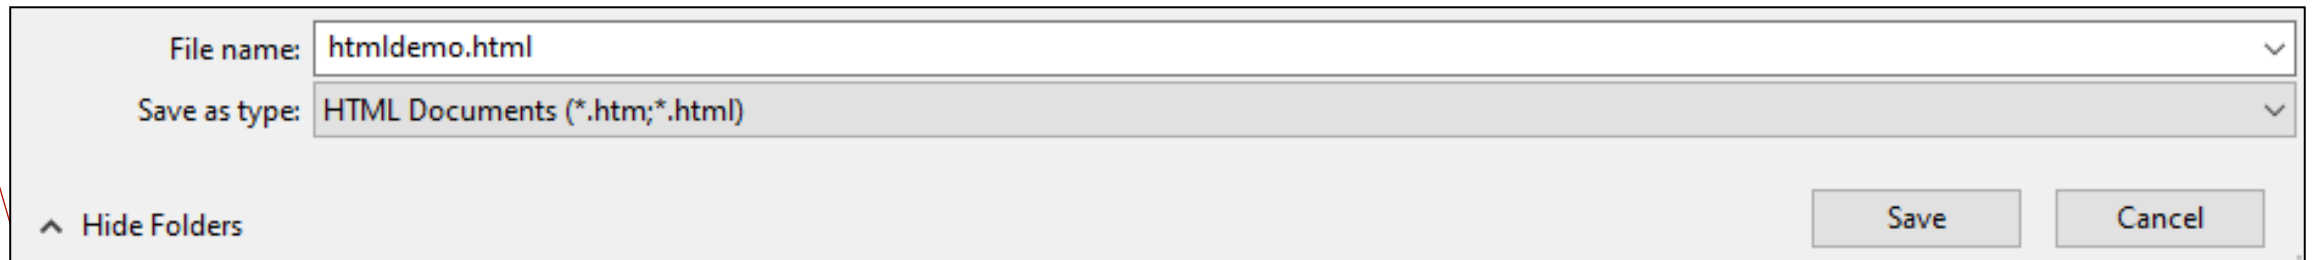

- Use the **Webster Preview** button at any time to see how the page will appear when running in Webster+

SAVE THE HTML PAGE

SAVE THE PAGE

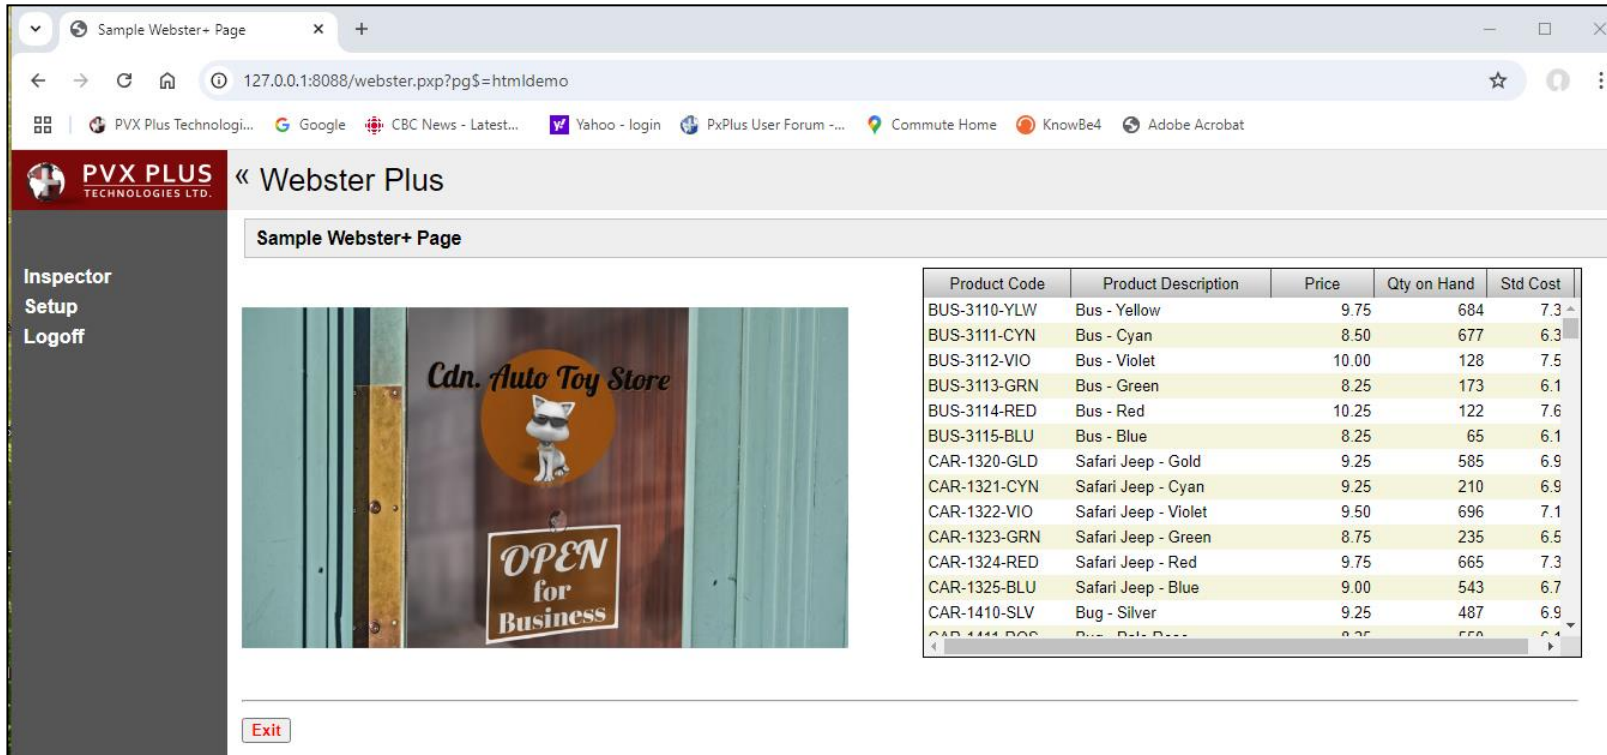

- Select the **File > Save As** option from the top menu to save the file in the `\pages` directory for your Webster+ installation (saved as **C:\Webster2024\pages\htmldemo.html**)

DISPLAY THE HTML PAGE

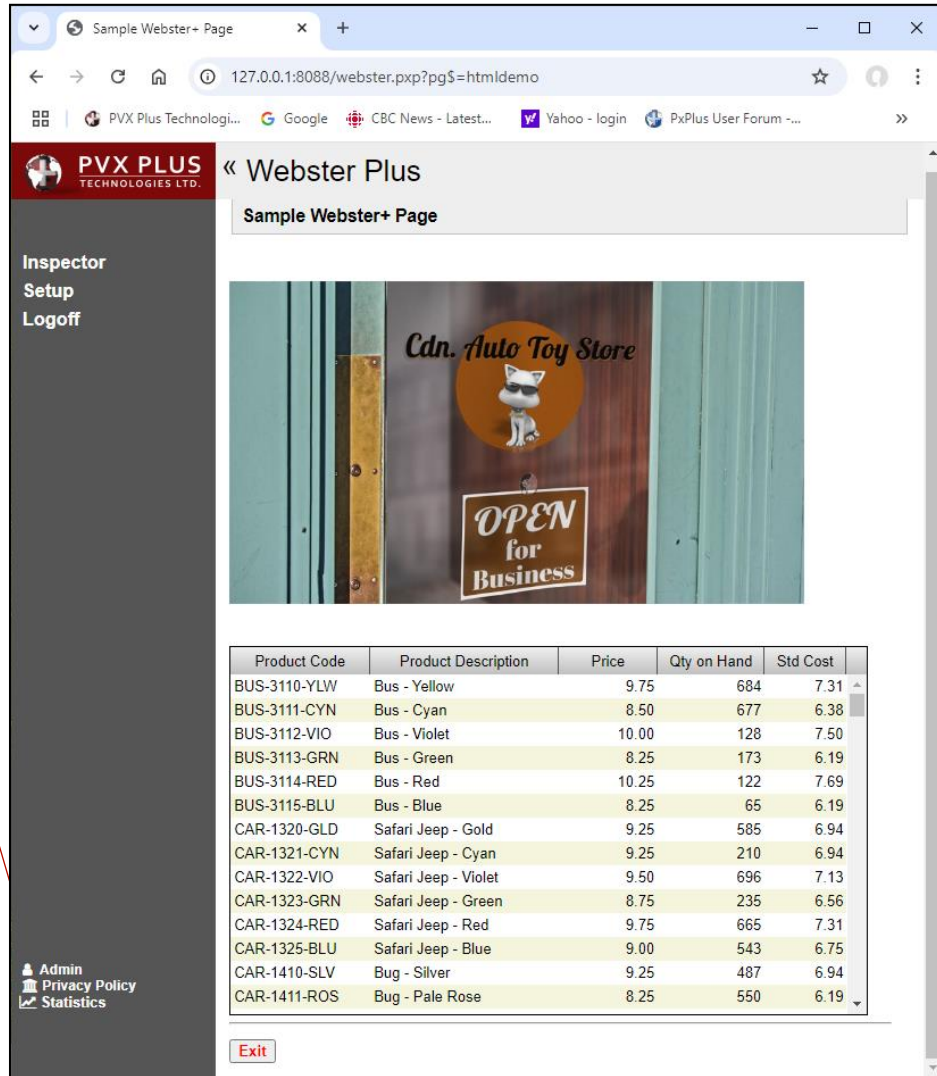

DISPLAY THE PAGE IN WEBSTER+

- With your Webster+ webserver running (locally on port 8088), navigate to **127.0.0.1:8088/webster.pxp?pg\$=htmldemo** in a browser (the extension is not required if it is .html)

Exit

RESPONSIVE

- Making your browser window smaller will allow the **second half section** to move below the **first half section**. The Horizontal line in the **whole section** will resize

IMAGE EVENT

- Clicking anywhere on the image will run the **image_pressed** event logic in the **html_program** program

SMART LIST BOX

- The List Box control is loaded using the **Product_qry** query definition in the **scrnlib.en** library

EXIT BUTTON

- The Exit button has **bolded red text**. Clicking on the button will run the [special Webster+ event](#) ***close** to exit the page
